Millers, MD 21102

February 5, 2009

Dear Mark,

We thought it was finally time to let you know how pleased we have been with the work you have done for us. When we decided to put an addition on our home, we checked with friends and acquaintances to get recommendations. Little did we know at the time, that we would be so satisfied with the quality of your work, that we would ask your help on three more projects.

Your recommendations and suggestions along the way on the family room addition were so valuable. The project was done to our specifications and was completed several weeks earlier than our deadline. Since we were so pleased with your work, we decided to hire you to do a roof on a rental house and the older part of our house. Once again, you came through for us.

When we decided to remodel our kitchen, you were of course, our first choice. The day our granite countertops were put in, the installers wanted to know who had done our cabinet installation. They said they had never seen such quality work. Everything was so level and sturdy that it made their job easy.

We feel confident recommending you to our friends, since we know you are an honest man who does quality work. Thank you, for so many jobs well done.

Sincerely,

Diane Baublitz
